4 – OBSERVATIONS

4.1 – The applicant may be requested to give additional information especially concerning the layout and antennas of base stations.

4.2 – If the application processing outcome is favourable, a spectrum licence valid for the requested duration will be granted.

4.3 – If needed, this licence can be renewed once for a maximum duration of two months. After that, if the applicant wishes to continue to use the network, a standard application form (printed form EN 1702) must be drawn up for this purpose. The frequencies that will be allocated then may be different from those allocated within the short term licence.

4.4 – According to the French decree n° 2007-1532, spectrum fees and management fees apply to frequency use. **The minimum amount of these fees is one hundred euro.**

5 – CONTACT
