

**Subject: 23<sup>rd</sup> International Space Radio Monitoring Meeting (ISRMM)**

Maisons-Alfort, May 16, 2022

Dear Sir or Madam,

**The Agence Nationale des Fréquences (ANFR) is pleased to announce the 23<sup>rd</sup> International Space Radio Monitoring Meeting (ISRMM).** This meeting will be held at the ANFR headquarters in Maisons-Alfort on September 13-15, 2022. It is opened to participants coming from communications regulatory administrations engaged in or interested in satellite monitoring as well as to members of satellite communications companies and other satellite related organizations.

The ISRMM will be organized as follows in 3 blocks of sessions:

- Tuesday, September 13, 2022: Symposium  
Conferences devoted to space radio monitoring, identification and resolution of satellite interference and other related topics;
- Wednesday, September 14, 2022: Site tour relating to manufacturer's site, Scientific's site or operator's site;
- Thursday, September 15, 2022: Regulator's expert meeting, Open to participants from Regulatory Administrations only.

Registrations

Online registrations have to be sent no later than August 16, 2022.

Presentations

The scope covered will be related to related to space radio monitoring, identification and resolution of satellite interferences and other related topics. If you are willing to make a presentation, online registration is required no later than September 1, 2022.

Venue

As indicated above, the symposium will be located in the ANFR headquarters in Maisons-Alfort (10 minutes from the train station Paris Gare de Lyon). Due to the sanitary measures still in force, ANFR will also provide interactive remote participation services for "Symposium" and "Regulator's experts meeting" (remote participation is of course not possible for "Site tour").

Symposium and site tour are free to join for every participant who would register on time, but attendees are responsible for their own travel and lodging arrangements.

Accommodation

Please contact directly the hotels. Paris "Gare de Lyon" area is easily connected to Maisons Alfort by RER D (station Maisons-Alfort - Alfortville)

For more other information, please visit <https://www.anfr.fr/ISRMM23>

If you have any inquiries, please do not hesitate to contact [ISRMM23@anfr.fr](mailto:ISRMM23@anfr.fr)

Your attention and participation will be highly appreciated.

Sincerely,

Spectrum Monitoring Director

Alain CARLIER
